Plastic Clever Penrith Survey of Single-Use Plastic

We're collecting the following information as part of an initiative supported by Penrith Town Council together with other local civic and community organisations, aiming to developing a 'Plastic Clever' strategy for Penrith to significantly reduce our dependence on disposable single-use plastic.

'Plastic Clever' is a coordinated local response to the growing realisation about the true extent of damage we're doing to land and oceans through plastic pollution.

Please answer those questions relevant to your organisation and where you're willing to share your information. Your support is greatly appreciated.

1.	Name of Retailer /	Business /	Organisation:
----	--------------------	------------	---------------
