There are also three other things which we could usefully discuss.

- The arrangements for the film evening with Newton Rigg. A lot of work has already been done but it would be useful to give some thought to projects which we could ask the students to get involved in.
- The second PACT debate on farming. Viv Lewis has agreed to lead this and Newton Rigg have been asked to contribute. Do we need a bigger room? What about the detail of the debate, main topics /questions. PC's approach to the Nuclear debate seemed to work well. Publicity?
- Eden Arts are also hoping to host a green festival at the end of August and are looking for help from PACT. PW hopes to have more information available for the meeting. NB A request has already been made to Eden Arts to make use of their cinema in the Arcade so we can show some films throughout the day and publicise Freegle
